Thanks for heads up Don. I see we now have more time before we meet w/ Ken to clean things up after Benita meeting.

Generally: I would like to see/be copied on briefing papers as they go up to Benita/Romell so please forward latest version to me and Gale please. Thank you, TomW.

Tom,

This is a heads-up that the version that made it to Romell/Benita did not have all of your edits. Steve Sweeney's (OGC) edits—which hit my in-box right about the time that yours did—were very extensive/lengthy and it took quite a while to go through them all. I kept many of his, but also trimmed back where I could. I also worked with R10 today to develop a set of options that we needed to add to the briefing handout. To make Romell's 5 PM deadline (and participate in 2 long conference calls on Oregon CZARA this afternoon), meant that I only made it through incorporating the first half of your edits. Version control was challenging and time-consuming. I will try to provide an update to the briefing package that includes the remainder of your edits before we meet with Benita at 1 PM.

I just wanted you to be aware of this, and I do apologize for it.

Don

Use this version. I purged the last comment.
